

CHARLES E. DERIVAUX

August 18, 1926

Finger Print Clerk in Newark Bureau of Identification

TESTIFIED (Page 676 et seq.):

Present at saplings with Mason, Schwartz and Day. Shrub-
bery broken near cedar sapling (676).

Unshod hoof marks looked too small for horse (676).

Saw manure; did not know kind (677).

Holes in ground made by pounding of hoofs of some animal (677).

Had heard that there had been a great many people in the
vicinity (678).

REDIRECT:

No other marks in the vicinity of the mule marks (678).
